Workshop IPC & ISHAC

Joint Meeting 2009

7th IPC

International Workshop
on Interventional
Pediatric Cardiology

Dear **F**riends and **C**olleagues,

it is our pleasure to invite you to attend the **7th International Workshop on Interventional Pediatric Cardiology** which will be exceptionally joined this year with the **4th ISHAC Meeting**. This Joint Meeting will be held in Milan from March 22nd to 25th.

Since its 1st edition in 1997, the IPC Workshop's dedication and expertise have contributed to some remarkable advances in the treatment of congenital heart disease by discussing and developing new transcatheter/surgical procedures which have greatly improved patients' outcomes.

The **aim** of this edition is to update our knowledge and to focus on the state of the art on the future perspectives in interventional procedures from fetal life to adult-hood. The **mission** is to provide education through demonstration, to share and compare experiences in order to improve the attendees' expertise in the management of congenital heart disease.

As an important innovation this year the ISHAC Meeting together with the IPC Workshop will allow us to cover all the stimulating topics related to the subject in a more comprehensive manner.

Most of the internationally recognized experts will be joining us as Faculty members. Based on the last edition which was attended by more than five hundred participants from all over the world, we will expect an even greater number of attendees for the IPC & ISHAC Joint Meeting next year.

Our **target audience** will include **Pediatric and Adult Cardiologists, Cardiac Surgeons, Pediatricians, Anesthesiologists, Neurologists, Psycologists**. Special sessions will be dedicated to **Juniors, Fellows, Nurses and Technicians**.

Interactive **live case transmissions** from **San Donato Milanese, Milan, Naples, Massa, Berlin, Warsaw, Paris, London, Giessen and Columbus (Ohio)** will allow the attendees to actively interact with questions directly answered by the international recognized Faculty performing the cases.

Looking forward to seeing you in March 2009!

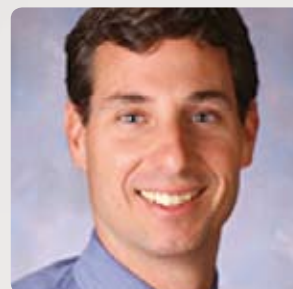

Mario Carminati, MD

ISHAC

4th International Symposium
on the Hybrid Approach to
Congenital Heart Disease

Dear **F**riends and **C**olleagues,

we are delighted to join Mario Carminati and his illustrious Team in offering this special, one day International Symposium on the Hybrid Approach to Congenital Heart Disease (ISHAC) on March 25th, 2009 as a part of the 7th Workshop IPC Meeting.

This 4th ISHAC will feature the latest clinical developments in the Hybrid treatment of complex congenital heart disease coupled with **live cases from Germany, United Kingdom and the United States.**

Once again, the **importance of teamwork between interventional cardiology and cardiothoracic surgery** will be highlighted. You also will get a glimpse into the future with discussions on new devices, treatment approaches, genetic research, and clinical outcomes in Hybrid therapies.

We hope that you will join us and share your insights and experiences in this rapidly developing field.

Sincerely,

John P. Cheatham, MD

Mark Galantowicz, MD

ABSTRACT SUBMISSION

INSTRUCTIONS FOR ABSTRACT SUBMISSION

Participants with new data relevant to Interventional Hemodynamics may submit one abstract to be considered as a poster or an oral presentation.

The abstract format should be as follows:

- language: English
- characters: maximum 2.000 (title included)
- font: Times New Roman
- size: 12
- title: in capital letters
- margins: 3 cm

The text should include **research aims, methods, results and conclusions**.

The names of the authors should follow the title, together with the affiliation.

The name of the author who will also be presenting the abstract must be underlined.

Please also provide address, phone, fax and e-mail of the abstract's author.

Abstracts can only be submitted by Physicians **under 35 years** (please attach a copy of your ID).

DEADLINE FOR ABSTRACT SUBMISSION: FEBRUARY 21st 2009

Upon receiving the submission e-mail, a **confirmation of receipt** will be sent via e-mail within 48 hours. In case of not receiving this confirmation, please send the submission e-mail again.

The **abstracts acceptance** will be sent by the Organizing Secretariat via e-mail at the latest by February 28th, 2009.

Participants with an accepted abstract will be entitled to a 50% reduction for an accepted poster and a 100% reduction for an accepted oral presentation on the registration fee to the Workshop IPC & ISHAC Meeting 2009 (which will be refunded afterwards).

Please note that the Registration to the Meeting is mandatory in order to present an abstract, being a poster or an oral presentation.

The Scientific Committee will select five abstracts to be presented as oral presentations during the "IPC AWARDS" on March 23rd. The winner will be voted by a Televoting System and will be awarded during the Gala Dinner. The winner will also be entitled to attend the next Workshop IPC in 2011 as a Faculty member. **Abstracts must be sent via e-mail to congress@cq-travel.com with the following Object: "ABSTRACT IPC 2009".**

ACCREDITATION

The Meeting has applied for ECM accreditation by the Italian Ministry of Health, UEMS and EBAC.

In compliance with EBAC/EACCME guidelines, all speakers/chairpersons/course directors/authors participating in this programme have disclosed potential conflicts of interest that might cause a bias in the presentations.

ECM/CME/USA Credits will be requested for Physicians, Nurses and Technicians: Physicians will obtain credits for attending the entire Workshop (4 days). Referring to the categories of Nurses and Technicians, please note that a maximum number of **60 Nurses** and **40 Technicians** participants will be admitted to the first teaching-day workshop. However, both categories will be very welcome to attend the entire event.

The Organizing Committee is responsible for ensuring that all potential conflicts of interest relevant to the programme are declared to the participants prior to the ECM activities.

“IPC & ISHAC Joint Meeting 2009” will be reviewed for accreditation by the European Board for Accreditation in Cardiology (EBAC).

The accreditation results will be announced on-site.
